3. With memory function when power is off ,achieve recovery when power is on;
4. Paging Partition playback control function, achieve paging to any partition;
5. Local and ultra long-range (1km) partition paging function , achieve convenient partition and flexibility;
6. With two MIC inputs, two line inputs;
7. Prelude volume is adjustable.

TECHNICAL PARAMETERS

Model	OBT-8050
Communication Protocol	RS485
Communication Interface	RS232
Communication Speed	4800bps
MIC Input	1 channel 6.35
Line Input	2 channel 6.35
Audio Input	1 channel 6.35
Alarm Audio Input	1 channel 6.35
Control Trigger Output	2 channel 6.35
Upper Communication Interface	1 group (9p)
Down Communication Interface	1 group (9p)
Ten Zone Upper Control Communication Interface	1 group (25p)
Ten Zone Down Control Communication Interface	1 group (25p)
Power Supply	AC 220V/50Hz
Standby Power Consumption	10W
Protection	AC FUSE×1A
Dimensions	484×450×88mm
Weight	6.76Kg
